

The choice is easy

Translator

A person wearing a red button-down shirt is holding a stack of white tissues. The background is blurred, showing other people in blue shirts. The overall scene suggests a public or professional setting where hygiene products are being showcased.

- 38. Dispenser napkins

The new Tork range

We* are now launching a totally new structure for the Tork brand. All products in the Tork range will continue to be branded Tork. We will introduce three sub-brands, indicating three different levels of price/ quality relationships:

Tork Premium is the best you can get.

Tork Advanced gives you good performance.

Tork Universal caters for your basic demands.

As a result of this, most Tork products will get new names based on Tork plus a sub-brand followed by a product description:

Tork + sub-brand + product description

This also means that:

- Tork products will get new names
- Tork packaging will get a new design
- Article numbers will remain the same
- Variant numbers are new and unique for the new packaging
- EAN codes will remain the same

Premium

Advanced

Universal

* SCA Away From Home Tissue Europe

New packaging

All packaging get new design

Tork Refill

Tork Refills will be split in three sub-brands:

Tork Premium White Cartons

Tork Advanced Brown Cartons

Tork Universal Brown Cartons

Tork Dispenser

The dispensers will also bear descriptive names (e.g. Hand Towel) and a system identifier (e.g. H2). Selected well-known system names will be carried forward as identifiers: For example, a Tork Xpress-Box will be called Tork Dispenser – Hand Towel Interfold (H2 Xpress system).

All dispenser packaging is white.

System Identifiers

We are introducing system identifiers to make the navigation between dispenser and refill easier. Some well known names remain as part of the identifier system (e.g.H1 Matic System).

H = Hand wiping

T = Toilet paper

S = Soap

N = Napkins

C = Healthcare

W = Wipers and cloths

M = Wipers (Centerfeed rolls)

A = Air fresheners

B = Bins

F = Facial
